

# LRQA Independent Assurance Statement

Rakuten Group, Inc.'s Environmental and Social Data for the calendar year 2021

This Assurance Statement has been prepared for Rakuten Group, Inc. in accordance with our contract.

## Terms of Engagement

LRQA Limited ("LRQA") was commissioned by Rakuten Group, Inc. ("the Company") to provide independent assurance on its environmental and social data for the calendar year 2021, that is, from 1 January to 31 December 2021, against the assurance criteria below to a limited level of assurance and at the materiality of the professional judgement of the verifier using ISAE 3000 (Revised) and ISO 14064-3:2019 for greenhouse gas ("GHG") emissions.

Our assurance engagement covered the Company's and its subsidiaries' operations and activities in Japan and overseas and specifically the following requirements:<sup>1</sup>

- Verifying conformance with the Company's reporting methodologies
- Evaluating the accuracy and reliability of data for the selected indicators listed below:

### Environmental indicators<sup>2</sup>

- Energy consumption (including the breakdown by energy source) (MWh)
- Ratio of renewable electricity (%)
- Scope 1 GHG emissions (tCO<sub>2</sub>e)
- Scope 2 GHG emissions (market and location-based) (tCO<sub>2</sub>e)
- Scope 3 GHG emissions (Category 1, 3, 5-7, 11-13, 15) (tCO<sub>2</sub>e)<sup>3</sup>
- Water consumption (m<sup>3</sup>)<sup>4</sup>
- Waste generation (Final waste disposal / Recycled) (tonnes)<sup>4</sup>

### Social indicators<sup>5</sup>

- Average length of service
- Employment rate of people with disabilities
- Total no. of fatalities
- Lost-time occupational injury frequency rate
- Lost-time occupational disease frequency rate

LRQA's responsibility is only to the Company. LRQA disclaims any liability or responsibility to others as explained in the end footnote. The Company's responsibility is for collecting, aggregating, analysing and presenting all the data and information within the report and for maintaining effective internal controls over the systems from which the report is derived. Ultimately, the report has been approved by, and remains the responsibility of the Company.

<sup>1</sup> Communication facilities, such as Base Station, Data Centre and Group Centre, are all covered. Other facilities, such as Office, Warehouse, Stadium, Own store, etc., are limited under below conditions ((1) or (2)). (1) Contracted power: High-voltage (50~2,000kW) or special high-voltage (2,000kW~), (2) Annual power consumption: 131,400kWh or more.

<sup>2</sup> GHG quantification is subject to inherent uncertainty.

<sup>3</sup> Category 1: It includes Category 2, 4, and 9. Rakuten Group, Inc., and its consolidated subsidiaries that have adopted the group's purchasing system (ROS) and major FinTech businesses (Rakuten Card and Rakuten Bank, Inc.), and listed companies outside Rakuten's scope of consolidation that account for 95% of total payments are covered.

Category 3: Emissions by power generation sold in the electricity retail business (Rakuten energy) are covered (excluding sales to Rakuten Group, Inc.'s consolidated companies).

Category 6: Employees business travels through the Group's travel expense replacement system are covered.

Category 13: Rakuten Stay accommodations that contract Rakuten Energy's specific menu are covered.

Category 15: Investments in and loans to listed companies other than Rakuten Group and project finance for projects with an investment amount of 1 billion yen or more are covered.

<sup>4</sup> Ground water consumption and Coverage of waste disposal volume is limited to Rakuten Crimson House, Rakuten Baseball, Inc. (home stadium), Rakuten Vissel Kobe, Inc. (home stadium), Taiwan Rakuten Sports Entertainment, Inc. (Home stadium) only.

<sup>5</sup> Coverage of Average length of service, Total number of fatalities, Lost-time injury frequency rate, Occupational disease frequency rate for employees are the Company only. Coverage of Employees with disabilities Employment Rate is the Company, Rakuten Socio Business, Inc., and Rakuten Communications Corp. Employees with disabilities Employment Rate is as of end December 2021.

### LRQA's Opinion

Based on LRQA's approach nothing has come to our attention that would cause us to believe that the Company has not, in all material respects:

- Met the requirements of the criteria listed above
- Disclosed accurate and reliable environmental and social data as summarized in Table 1~4 below.

The opinion expressed is formed on the basis of a limited level of assurance<sup>6</sup> and at the materiality of the professional judgement of the verifier.

Table 1. The Company's Energy Consumption for the calendar year 2021

Energy Source	MWh
Total Energy Consumption	466,683
Fuel Consumption	
City Gas	7,729
Gasoline	338
Light Oil	326
LPG	442
Kerosene	27
Total Electricity Consumption	457,822
Non-renewable source	363,345
Renewable source	94,477
Ratio of renewable source	20.6%

Table 2. The Company's GHG emissions<sup>2,3</sup> for the calendar year 2021

Scope	tCO <sub>2</sub> e
Scope 1 GHG emissions	1,647
Scope 2 GHG emissions	-
Market-based	169,935
Location-based	241,308
Scope 3 GHG emissions	-
Category 1	673,142
Category 3	980,444
Category 5	416
Category 6	550
Category 7	6,820
Category 11	5,825
Category 12	71
Category 13	0
Category 15	235,775

Table 3. The Company's Environmental Data<sup>4</sup> for the calendar year 2021

	Amount
Water consumption	142 x 10 <sup>3</sup> m <sup>3</sup>
Waste generation	1,288 Tonnes
Waste recycled	544 Tonnes
Final waste disposal	744 Tonnes

<sup>6</sup> The extent of evidence-gathering for a limited assurance engagement is less than for a reasonable assurance engagement. Limited assurance engagements focus on aggregated data rather than physically checking source data at sites. Consequently, the level of assurance obtained in a limited assurance engagement is lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

Table 4. The Company's Social Data<sup>5</sup> for the calendar year 2021

	Amount
Average length of service	4.7 Years
Employment rate of people with disabilities	2.47%
Total no. of fatalities	0
Lost-time occupational injury frequency rate	0
Lost-time occupational disease frequency rate	0.06

### LRQA's Approach

LRQA's assurance engagements are carried out in accordance with ISAE 3000 (Revised) and ISO 14064-3:2019. The following tasks were undertaken as part of the evidence gathering process for this assurance engagement:

- Auditing the Company's data management systems to confirm that there were no significant errors, omissions or misstatements in the report. We did this by reviewing the effectiveness of data handling procedures, instructions and systems, including those for internal verification.
- Interviewing with those key people responsible for compiling the data and drafting the report.
- Sampling datasets and traced activity data back to aggregated levels;
- Verifying the historical GHG emissions, other environmental and social data and records for the calendar year 2021; and
- By implementing the Company's "No Visitor" Policy due to the global infection spread of COVID-19, conducting the remote verification of Rakuten Bank, Ltd., Rakuten Card Co., Ltd. and Rakuten Mobile, Inc. to assess whether the data management systems have been effectively implemented via e-mail and Zoom.

### Observations

Further observations, made during the assurance engagement, are:

- Since telecommunication facilities, consisting of many base stations and energy-intensive data centres, are complex for energy management. The Company establish energy management system to further improve the accuracy and comprehensiveness of the reported values in response to the expected increase in energy use in the future.
- The Company should improve the system to collect, aggregate and verify activity data accurately by assigning person in charge in order to improve the accuracy and completeness of the reporting data by sites.

### LRQA's Standards, Competence and Independence

LRQA implements and maintains a comprehensive management system that meets accreditation requirements for ISO 14065 *Greenhouse gases – Requirements for greenhouse gas validation and verification bodies for use in accreditation or other forms of recognition* and ISO/IEC 17021-1 *Conformity assessment – Requirements for bodies providing audit and certification of management systems – Part1: Requirements* that are at least as demanding as the requirements of the International Standard on Quality Control 1 and comply with the *Code of Ethics for Professional Accountants* issued by the International Ethics Standards Board for Accountants.

LRQA ensures the selection of appropriately qualified individuals based on their qualifications, training and experience. The outcome of all verification and certification assessments is then internally reviewed by senior management to ensure that the approach applied is rigorous and transparent.

This is the only work undertaken by LRQA for the Company and as such does not compromise our independence or impartiality.

# LR Independent Assurance Statement

## Relating to Rakuten Group Corporation's Environmental and Social Data for the calendar year 2020

This Assurance Statement has been prepared for Rakuten Group Corporation in accordance with our contract but is intended for the readers of this report.

### Terms of engagement

Lloyd's Register Quality Assurance Limited (LR) was commissioned by Rakuten Group Corporation ("the Company") to provide independent assurance on its environmental and social data within its Corporate Report 2020 and Rakuten group ESG data book 2020 ("the report") for the year 2020, that is, from 1 January to 31 December 2020, against the assurance criteria below to a limited level of assurance and at the materiality of the professional judgement of the verifier using ISAE 3000 and ISO 14064-3:2006 for greenhouse gas ("GHG") data.

Our assurance engagement covered the Company's and its subsidiaries' operations and activities in Japan and overseas and specifically the following requirements:<sup>1</sup>

- Verifying conformance with the Company's reporting methodologies
- Evaluating the accuracy and reliability of data for the selected indicators listed below:<sup>2</sup>

#### Environmental indicators<sup>3</sup>

- Energy consumption volume (in MWh equivalent)
- Scope 1 GHG emissions (tonnes CO<sub>2</sub>e)
- Scope 2 GHG emissions (market and location-based) (tonnes CO<sub>2</sub>e)
- Scope 3 GHG emissions (Category 1-8, 11, 12, 14, 15) (tonnes CO<sub>2</sub>e)
- Water consumption volume (m<sup>3</sup>)<sup>4</sup>
- Waste disposal volume (tonnes)<sup>5</sup>

#### Social indicators<sup>6</sup>

- Average length of service
- Employees with disabilities employment rate
- Total No. of fatalities
- Lost-time injury frequency rate
- Occupational disease frequency rate for employees

Our assurance engagement excluded the data and information of the Company's suppliers, contractors and any third-parties mentioned in the report.

LR's responsibility is only to the Company. LR disclaims any liability or responsibility to others as explained in the end footnote. The Company's responsibility is for collecting, aggregating, analysing and presenting all the data and information within the report and for maintaining effective internal controls over the systems from which the report is derived. Ultimately, the report has been approved by, and remains the responsibility of the Company.

### LR's Opinion

Based on LR's approach nothing has come to our attention that would cause us to believe that the Company has not, in all material respects:

- Met the requirements above
- Disclosed accurate and reliable environmental and social data

<sup>1</sup> Offices which have over 48 regular employees, all logistics center, all sports facilities, all base stations, all data centers, Rakuten Farm, Inc. (all factories), and Rakuten Mobile, Inc. (Direct Shops) are covered.

<sup>2</sup> LR undertook a limited assurance engagement of the environmental and social data marked with "√" within Corporate Report 2020 and Rakuten group ESG data book 2020.

<sup>3</sup> GHG quantification is subject to inherent uncertainty.

<sup>4</sup> Ground water consumption by Rakuten Farm, Inc. is excluded.

<sup>5</sup> Coverage of waste disposal volume calculation is limited to Rakuten Crimson House, Rakuten Rise Office, RFC Ichikawa I, RFC Ichikawa II, RFC Ichikawa III, RFC Ichikawa IV, RFC Kawanishi, RFC Nagareyama, RFC Hirakata, RFC Narashino, Rakuten Mobile, Inc.(Office), Rakuten Direct Logistics, Inc. (Sagamihara, Narita, Nankou GLP, Nankou PP5, Iizuka), Rakuten Farm, Inc. (Ozu Niiya, Ozu Haruka), Rakuten Baseball, Inc. (home stadium), Rakuten Vissel Kobe, Inc. (home stadium), Rakuten General Insurance Co., Ltd.(Office), Rakuten Card Co., Ltd.(Office) only.

<sup>6</sup> Coverage of Average length of service, Total number of fatalities, Lost-time injury frequency rate, Occupational disease frequency rate for employees are the Company only. Coverage of Employees with disabilities Employment Rate is the Company, Rakuten Socio Business, Inc., and Rakuten Communications Corp. Employees with disabilities Employment Rate is as of end December 2020.

The opinion expressed is formed on the basis of a limited level of assurance and at the materiality of the professional judgement of the verifier.

**Note:** The extent of evidence-gathering for a limited assurance engagement is less than for a reasonable assurance engagement. Limited assurance engagements focus on aggregated data rather than physically checking source data at sites. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

### LR's approach

LR's assurance engagements are carried out in accordance with ISAE 3000 and ISO 14064 - 3 for GHG data. The following tasks though were undertaken as part of the evidence gathering process for this assurance engagement:

- Auditing the Company's data management systems to confirm that there were no significant errors, omissions or mis-statements in the report. We did this by reviewing the effectiveness of data handling procedures, instructions and systems, including those for internal verification;
- Interviewing with key people responsible for compiling the data and drafting the report;
- Sampling datasets and tracing activity data back to aggregated levels;
- Verifying the historical GHG emissions, other environmental and social data and records for the calendar year 2020; and
- By implementing the Company's "No Visitor" Policy due to the global infection spread of COVID-19, conducting the remote verification of Rakuten Mobile, Inc. and Rakuten Farm, Inc. to assess whether the data management systems have been effectively implemented via e-mail and Zoom.

### Observations

The Company should improve the system to collect, aggregate and verify activity data accurately by assigning person in charge in order to improve the accuracy and completeness of the reporting data by sites.

### LR's standards, competence and independence

LR implements and maintains a comprehensive management system that meets accreditation requirements for ISO 14065 *Greenhouse gases – Requirements for greenhouse gas validation and verification bodies for use in accreditation or other forms of recognition* and ISO/IEC 17021-1 *Conformity assessment – Requirements for bodies providing audit and certification of management systems – Part 1: Requirements* that are at least as demanding as the requirements of the International Standard on Quality Control 1 and comply with the *Code of Ethics for Professional Accountants* issued by the International Ethics Standards Board for Accountants.

LR ensures the selection of appropriately qualified individuals based on their qualifications, training and experience. The outcome of all verification and certification assessments is then internally reviewed by senior management to ensure that the approach applied is rigorous and transparent.

This is the only work undertaken by LR for the Company and as such does not compromise our independence or impartiality.

# LR Independent Assurance Statement

## Relating to Rakuten Corporation's Environmental and Social Data for the calendar year 2019

This Assurance Statement has been prepared for Rakuten Corporation in accordance with our contract but is intended for the readers of this report.

### Terms of engagement

Lloyd's Register Quality Assurance Limited (LR) was commissioned by Rakuten Corporation ("the Company") to provide independent assurance on its environmental and social data within its Corporate Report 2019 and Rakuten group ESG data book 2019 ("the report") for the year 2019, that is, from 1 January to 31 December 2019, against the assurance criteria below to a limited level of assurance and at the materiality of the professional judgement of the verifier using ISAE 3000 and ISO 14064 - 3 for greenhouse gas ("GHG") data.

Our assurance engagement covered the Company's and its subsidiaries' operations and activities in Japan and overseas and specifically the following requirements:<sup>1</sup>

- Verifying conformance with the Company's reporting methodologies
- Evaluating the accuracy and reliability of data for the selected indicators listed below:<sup>2</sup>

#### Environmental indicator<sup>3</sup>

- Energy consumption volume (in MWh equivalent)
- Scope 1 GHG emissions (tonnes CO<sub>2</sub>e)
- Scope 2 GHG emissions (market and location-based) (tonnes CO<sub>2</sub>e)
- Scope 3 GHG emissions (Category 1-8, 11, 12) (tonnes CO<sub>2</sub>e)<sup>4</sup>
- Water consumption volume (m<sup>3</sup>)
- Waste disposal volume (tonnes)<sup>5</sup>

#### Social indicator<sup>6</sup>

- Average length of service
- Employees with disabilities employment rate
- Total No. of fatalities
- Lost-time injury frequency rate
- Occupational disease frequency rate for employees

Our assurance engagement excluded the data and information of the Company's suppliers, contractors and any third-parties mentioned in the report.

LR's responsibility is only to the Company. LR disclaims any liability or responsibility to others as explained in the end footnote. The Company's responsibility is for collecting, aggregating, analysing and presenting all the data and information within the report and for maintaining effective internal controls over the systems from which the report is derived. Ultimately, the report has been approved by, and remains the responsibility of the Company.

### LR's Opinion

Based on LR's approach nothing has come to our attention that would cause us to believe that the Company has not, in all material respects:

- Met the requirements above
- Disclosed accurate and reliable environmental and social data

The opinion expressed is formed on the basis of a limited level of assurance and at the materiality of the professional judgement of the verifier.

<sup>1</sup> Offices which have over 39 regular employees are covered.

<sup>2</sup> LR undertook a limited assurance engagement of the environmental and social data marked with "✓" within Corporate Report 2019 and Rakuten group ESG data book 2019.

<sup>3</sup> GHG quantification is subject to inherent uncertainty.

<sup>4</sup> Coverage of Scope 3 GHG emissions calculation is the Company only. Its subsidiaries in Japan and overseas are not included.

<sup>5</sup> Coverage of waste disposal volume calculation is limited to Rakuten Crimson House, Rakuten Rise Office, RFC Ichikawa I, RFC Ichikawa II, RFC Ichikawa III, RFC Kawanishi, RFC Nagareyama, RFC Hirakata, Rakuten Direct Logistics, Inc., Rakuten Baseball, Inc. (home stadium), Rakuten Vissel Kobe, Inc. (home stadium), Rakuten General Insurance Co., Ltd.(Office), Rakuten Card Co., Ltd.(Office), Rakuten Mobile, Inc.(Office) only.

<sup>6</sup> Coverage of Average length of service, Total number of fatalities, Lost-time injury frequency rate, Occupational disease frequency rate for employees are the Company only. Coverage of Employees with disabilities Employment Rate is the Company, Rakuten Socio Business, Inc., and Rakuten Communications Corp. Employees with disabilities Employment Rate is as of end December 2019.

**Note:** The extent of evidence-gathering for a limited assurance engagement is less than for a reasonable assurance engagement. Limited assurance engagements focus on aggregated data rather than physically checking source data at sites. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

### LR's approach

LR's assurance engagements are carried out in accordance with ISAE 3000 and ISO 14064 - 3 for GHG data. The following tasks though were undertaken as part of the evidence gathering process for this assurance engagement:

- Auditing the Company's data management systems to confirm that there were no significant errors, omissions or mis-statements in the report. We did this by reviewing the effectiveness of data handling procedures, instructions and systems, including those for internal verification;
- Interviewing with key people responsible for compiling the data and drafting the report;
- Sampling datasets and tracing activity data back to aggregated levels;
- Verifying the historical GHG emissions, other environmental and social data and records for the calendar year 2019; and
- By implementing the Company's "No Visitor" Policy due to the global infection spread of COVID-19, conducting the remote verification of Rakuten Vissel Kobe and Sagami-hara Center of Rakuten direct logistics to assess whether the data management systems have been effectively implemented via e-mail and Zoom.

### Observations

The company should standardise reporting formats and share the same understanding on the aim of reporting to further improve accuracy and completeness of activity data provided by the sites.

### LR's standards, competence and independence

LR implements and maintains a comprehensive management system that meets accreditation requirements for ISO 14065 *Greenhouse gases – Requirements for greenhouse gas validation and verification bodies for use in accreditation or other forms of recognition* and ISO/IEC 17021-1 *Conformity assessment – Requirements for bodies providing audit and certification of management systems – Part 1: Requirements* that are at least as demanding as the requirements of the International Standard on Quality Control 1 and comply with the *Code of Ethics for Professional Accountants* issued by the International Ethics Standards Board for Accountants.

LR ensures the selection of appropriately qualified individuals based on their qualifications, training and experience. The outcome of all verification and certification assessments is then internally reviewed by senior management to ensure that the approach applied is rigorous and transparent.

This is the only work undertaken by LR for the Company and as such does not compromise our independence or impartiality.

# LR Independent Assurance Statement

## Relating to Rakuten Corporation's Environmental Data within its Corporate Report 2018 for the fiscal year 2018

This Assurance Statement has been prepared for Rakuten Corporation in accordance with our contract but is intended for the readers of this report.

### Terms of engagement

Lloyd's Register Quality Assurance Limited (LR) was commissioned by Rakuten Corporation ("the Company") to provide independent assurance on its environmental data within its Corporate Report 2018 ("the report") for the fiscal year 2018, that is, from 1 January to 31 December 2018, against the assurance criteria below to a limited level of assurance and at the materiality of the professional judgement of the verifier using ISAE 3000 and ISO 14064 - 3 for greenhouse gas ("GHG") data.

Our assurance engagement covered the Company's and its subsidiaries' operations and activities in Japan and overseas and specifically the following requirements:

- Verifying conformance with the Company's reporting methodologies
- Evaluating the accuracy and reliability of data for the selected indicators listed below:

#### *GHG Emission data*<sup>1</sup>

- Energy consumption volume (in mega watt-hour equivalent)
- Scope 1 GHG emissions (tonnes CO<sub>2</sub>e)
- Scope 2 GHG emissions (market and location-based) (tonnes CO<sub>2</sub>)<sup>2</sup>
- Scope 3 GHG emissions (Category 1-8, 11, 12) (tonnes CO<sub>2</sub>e)<sup>3</sup>

#### *Other environmental indicators*

- Water consumption volume (m<sup>3</sup>)
- Waste disposal volume (tonnes)<sup>4</sup>

Our assurance engagement excluded the data and information of the Company's suppliers, contractors and any third-parties mentioned in the report.

LR's responsibility is only to the Company. LR disclaims any liability or responsibility to others as explained in the end footnote. The Company's responsibility is for collecting, aggregating, analysing and presenting all the data and information within the report and for maintaining effective internal controls over the systems from which the report is derived. Ultimately, the report has been approved by, and remains the responsibility of the Company.

### LR's Opinion

Based on LR's approach nothing has come to our attention that would cause us to believe that Company has not, in all material respects:

- Met the requirements above
- Disclosed accurate and reliable performance data

The opinion expressed is formed on the basis of a limited level of assurance and at the materiality of the professional judgement of the verifier.

**Note:** The extent of evidence-gathering for a limited assurance engagement is less than for a reasonable assurance engagement. Limited assurance engagements focus on aggregated data rather than physically checking source data at sites. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

<sup>1</sup> GHG quantification is subject to inherent uncertainty.

<sup>2</sup> Carbon offset claims for fiscal year 2018 are excluded from this assurance engagement.

<sup>3</sup> Limited to the Company-associated activities only; activities of subsidiaries in Japan and overseas are excluded.

<sup>4</sup> Limited to activities associated with Rakuten Head Office, RFC Ichikawa I, RFC Ichikawa II, RFC Ichikawa III, RFC Kawanishi, Rakuten Baseball, Inc. (home stadium), Rakuten Vissel Kobe, Inc. (home stadium) only.

### LR's approach

LR's assurance engagements are carried out in accordance with ISAE 3000 and ISO 14064 – 3 for GHG data. The following tasks though were undertaken as part of the evidence gathering process for this assurance engagement:

- Auditing the Company's data management systems to confirm that there were no significant errors, omissions or mis-statements in the report. We did this by reviewing the effectiveness of data handling procedures, instructions and systems, including those for internal verification;
- Interviewing with key people responsible for compiling the data and drafting the report;
- Sampling datasets and tracing activity data back to aggregated levels;
- Verifying the historical GHG emissions and other environmental data and records for the fiscal year 2018; and
- Visiting Rakuten Super Logistics RFC Ichikawa I and Rakuten Baseball, Inc. to assess whether the data management systems have been effectively implemented.

### Observations

The company should standardise reporting formats and share the same understanding on reporting objectives to further improve accuracy and completeness of activity data provided by the sites.

### LR's standards, competence and independence

LR implements and maintains a comprehensive management system that meets accreditation requirements for ISO 14065 *Greenhouse gases – Requirements for greenhouse gas validation and verification bodies for use in accreditation or other forms of recognition* and ISO/IEC 17021-1 *Conformity assessment – Requirements for bodies providing audit and certification of management systems – Part 1: Requirements* that are at least as demanding as the requirements of the International Standard on Quality Control 1 and comply with the *Code of Ethics for Professional Accountants* issued by the International Ethics Standards Board for Accountants.

LR ensures the selection of appropriately qualified individuals based on their qualifications, training and experience. The outcome of all verification and certification assessments is then internally reviewed by senior management to ensure that the approach applied is rigorous and transparent.

This is the only work undertaken by LR for Company and as such does not compromise our independence or impartiality.
